

## *CURRICULUM VITAE*

University of Sheffield  
Sheffield, United Kingdom

Organon N. V.  
Oss, The Netherlands

### **Constantijn F. W. Sanders**

Year of Birth: 1976

Nationality: Dutch

Constantijn Sanders did his Chemical Engineering degree at the University of Groningen. In 2001 he joined Organon N.V., The Netherlands to research the kinetics of high shear granulation. From that position he has been seconded to the Particle Products Group at the University of Sheffield where he is conducting experimental and predictive modelling studies on high-shear granulation. He currently divides his time between Sheffield and Organon's Research Laboratories in Oss, the Netherlands.
